Habitual constipation is the door through which many of the serious ills of the body are admitted. The occasional use of Prickly Ash Bitters will cure and remove this distressing condition. Anti-Monopoly Drug Store, special agents. 4-12

Dr. John Gordon Law, who recently resigned as pastor of the Presbyterian church, left last Wednesday to spend the heated term at his summer home in Waihalla, S. C. Mrs. Law and daughter, Elizabeth, will join him later.

Many so-called "bitters" are not medicines, but simply liquids disguised, so as to evade the law. Prickly Ash Bitters is not one of this class. It is strictly a medicine, acting primarily on the kidneys, liver and bowels, and for the dangerous diseases that attack these organs it is a remedy of the first grade. There is nothing objectionable in its taste, it has an agreeable flavor and is acceptable to the most delicate stomach. Anti-Monopoly Drug Store, special agents.

Florida.

The Florida Press Association gathering at Miami March 20-22, was a marked success in every way and surprised everyone in the increased application for membership. The warmth of fraternal feeling never was so strong and there was a desire on the part of all to make the utterance of the press of such practical strength as to win recognition throughout our great country.

Of all the men we came in contact during the pleasurable outing at Miami, there is one that will always stand out in strong relief as an object lesson to those of his own craft, for thoughtfulness, judgment and ability in his association with men in the discharge of his various duties—George W. Wilson, editor Times-Union and Citizen.

Although editor of the leading publication in Florida, he holds himself ever ready to profit through information offered by editors of smaller publications, and in turn gladly aids them in every way that comes within his province of power.—Robert Mitchell Floyd in Boston Trade List.

Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and, if properly treated as soon as this cough appears, are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by the Anti-Monopoly Drug Store.

Notice of the June Examination.

Teachers will be required to supply themselves with foolscap paper, pen and ink. One dollar will be charged each applicant, according to law, to pay the expenses of the examination. Three days will be given those applying for second and third grades, and four days for first grades.

A grain of sand in the eye can cause excruciating agony. A grain of pepper in place of the grain of sand intensifies the torment. The pain is not confined to the organs affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There are fretfulness, irritability, sullenness and depression of spirits. The general health of woman depends on the local health of the organs peculiarly feminine. Remove the drains, ulcerations, bearing down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine and other narcotics, poisons which enter into many other preparations for woman's use. It makes weak women strong and sick women well.

Converts a Wilderness into a Flower Garden.

From the day of creation till a few years ago the east coast from Titusville south, except a few settlements on Indian River and Lake Worth, was a wilderness without productions, without trade and without people.

In this condition it remained till Flagler built his railroad. Then people flocked in, settlements were made, money was invested, land was cleared and planted, beautiful homes were erected, and within a few years the wilderness of the centuries has become the garden spot of the United States and the joy of all beholders.

All that the east coast is today is due to Flagler. But for him the country would be uninhabited save by a few Indians and wreckers. The people of Florida recognize this; they appreciate what Flagler has done for the state, and his name will be green in history when the memory of his detractors and calumniators has perished from the earth.—Lake City Index.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy, which helped him. I repeated the dose, and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." Sold by the Anti-Monopoly Drug Store.

Major Chas. W. Campbell, one of the veteran farmers of Marion county, is getting a hump on him that will serve as an example to younger men. His object is to restore to Marion county its former reputation for cane growing. Marion once stood at the front in this line. It has the finest sugar lands in the state. Major Campbell is now organizing a company for the growing of sugar cane and the manufacture of sugar and syrup, and says he is receiving substantial encouragement within and without the state. He thinks he can easily secure a capital stock of \$100,000, and for the manufacture of sugar and syrup make Marion county more famous than it was under the old regime when sugar cane was one of its chief productions. The major has opened an office in Ocala, says he is receiving a peck of letters daily, and intends to fill Marion county with immigrants, energetic and industrious.
